RUSSIAN SQUADRON SAILS SOUTHWARD

To Form junction With Admiral Nebogatoff's Ships.

LOOKING FOR JAPANESE ATTACK

It is State that Admiral Togo's Fast Cruisers Will Probably Engage Second Division of Squadron in Battle Japs Still Doubt France.

St. Petersburg, May 5.—1:55 p. m.—Admiral Rojestvensky, according to a high naval authority, has sailed south to meet the division of the Russian second Pacific squadron commanded by Admiral Nebogatoff. The admiralty has information that a Japanese division of fast cruisers and torpedo boat destroyers was sent south for the purpose, if possible, of crippling or destroying Nebogatoff's ships before they could effect a junction with those of Rojestvensky, and there is reason to believe that the Japanese took up a position in the straits of Sunda through which Nebogatoff originally intended to make the passage into the North sea.

There is also reason to believe that Nebogatoff first approached the straits of Sunda, but finding them too well guarded, put about and headed north for the straits of Malacca, his division lacking protection of fast cruisers and having a great disadvantage of meeting torpedo boat attacks. The admiralty expresses much gratification at the fact that Admiral Nebogatoff has successfully reached the China sea, but appreciates that the composition of his division renders it particularly vulnerable to a swift adversary, especially as the crews of his ships have not had the training in maneuvers or the target practice which Admiral Rojestvensky's crews had while off the island of Madagasca, and the anxiety here will only be completely relieved when it is known that a junction has been effected.

The Russ today announces that Captain Clado has been made a staff captain. Clado was Admiral Rojestvensky's chief tactician until the North sea incident. He recently was appointed to special service in connection with vessels navigating rivers in the theater of war.

Charges France with Bad Faith.

Tokio, May 6.—Popular attention is now centered on the presence of the second Russian Pacific squadron in French waters. While the assurances of France relating to the Kamranh bay incident, were generally accepted, the later discovery that the Russian ships continued their stay at Kamranh bay and then entered other French ports, has created a feeling of keen disappointment, rapidly growing deeply resentful. The local press charges France with bad faith and repeats the demand for independent action on the part of the Japanese government. The government is awaiting France's response in explanation, hoping that that government will expel the Russian rear admiral Rojestvensky from its waters.

Wife Murderer to Hang.

Conyers, Ga., May 6.—Will Sims charged with the murder of his wife Rosa Sims, April 11, was convicted and sentenced to be hanged June 2. The trial took place at a special term of court, called by Judge Roan in response to a petition which was numerously signed. During the hearing the court room was packed to suffocation, and the deepest interest was manifested. The defense pleaded insanity. The jury was out only a short time, the whole trial occupying about five hours.

Peculiar Death of a Young Man.

New Orleans, May 6.—A special to the States from Port Gibson, Miss., says that Ivan Jeffries, 26 years old, son of County Assessor E. S. Jeffries, met his death in a peculiar manner early today. Young Jeffries was subject to convulsions. During the night he was attacked by one, falling out of his bed and breaking his neck. The body was found at daylight.

STORM ON LONG ISLAND.

Beach Strewn with Sailboats Wrecked by Waves.

New York, May 6.—Many small sailing boats have been thrown ashore and wrecked in a gale which swept this section. Along New Rochelle and Larchmont on Long island sound at least a score of small boats are lying on the beach.

One large schooner bound up the sound had all the canvass she was carrying blown to shreds, and was nearly driven on the Long Island shore.

Five men narrowly escaped death by the capsizing of their schooner in the Hudson, off Ingwood. The boat was bound down with a cargo of bricks from Haverstraw when the gale clapped down and the whole outfit turned turtle. Three men who happened to be watching the scene from a bathing pavilion ashore seized a power launch and put out with full speed.

They arrived none too soon, for one of the schooners' crew, who had been hit on the head by a brick was about to sink. The luckless mariners from Haverstraw were eventually all rescued, but their craft was lost.

WIFE SSES HUSBAND SLAIN.

Dispute Over Grape Vines Causes a Tragedy on Street.

Spartanburg, S. C., May 6.—Thomas Jones was shot yesterday morning at an early hour by Thomas Godfrey and died a few minutes afterward. The bullet entered his left side in the region on the heart. Jones' wife was a witness of the tragedy in which her husband lost his life.

The homicide occurred on North Church street at the home of the deceased, near the front gate. Jones and his wife were sitting on the front porch waiting for a car to take him to work. Godfrey passed and had in his hand some grape vines. He asked Jones if he knew anything about them, inferring that the latter had injured his vines.

Jones arose and advanced, passing the lie, it is said, after denying the accusation. Without further words Godfrey pulled his pistol and fired. Jones expired within a few minutes.

THREE DEATHS IN THREE HOURS

Cerebro-Spinal Meningitis Continues to Rage in New York.

New York, May 6.—Three deaths from cerebro-spinal meningities have occurred within the space of three hours at Bellevue hospital. Four other fatal cases were reported by the health authorities during the past few days. These figures indicate a big falling off in the disease. Twenty-six beds in the meningitis pavilion of the hospital are still filled with the patients.

In support of his theory that the patient must have proper nourishment in order to withstand the ravages of meningitis, commissioner Darling today will take up with the convention of physicians the mater of instructing the parents of school children as to what food shall be provided for the morning meal particularly.

Successor to Senator Platt.

Hartford, Conn., May 6.—The choice at an early hour today of Congressman J. B. Brandgee, of New London, to be Republican candidate for senator to succeed the late Orville H. Platt, came at the end of a continuous series of balloting during a session of twelve hours. The caucus of Republican members of the senate and house of the general assembly was finished at about 2:30 a. m. The nomination was made on the 27th ballot, when Brandgee received 137 votes, or three more than necessary to a choice.

Negroes Are Declared Guilty.

Birmingham, Ala., May 6.—A News special from Decatur says that the jury in the case of John Collier, a negro, charged with the murder of Miss Belle returned a verdict of guilty of murder in the first degree today and fixed punishment at death. Harvey Smith, negro, was convicted of the same crime and given a like sentence on Tuesday. The trials of both negroes were held under military guard to prevent mob violence. Will Jackson, negro, convicted of the murder of Sanitary Officer Steele, is now being held and will remain until concluded.

STRIKE SITUATION REMAINS THE SAME

Sheriff Of Cook County Has Charge Of Chicago.

SOLDIERS ARE NOW CALLED FOR

Sheriff Has Sworn In 200 Extra Deputies—Ranks of the Strikers Were Augmented by 100 New Strikers Today—Situation Grows Critical.

Chicago, May 6.—Additions to the number of teamsters on strike will aggregate nearly a hundred today.

The new strikes are confined to individual concerns, chiefly wholesale grocery houses. All the principal wholesale grocery firms in the city are now under the ban of the teamsters, and the diminishing stock in the retail stores are further placed in jeopardy.

The union leaders also threaten to tie up the river service by calling out the tugmen and thus add more difficulties to the transfer of goods from the grocery warehouses. Union tugmen reported that several large concerns were untilizing the river route to move merchandise.

Warned by the sheriff Thomas W. Parrett that troops would be asked for by him if police and deputy sheriffs together proved unable to control violence, strike sympathizers were less in evidence about the many strike-bound stores and stables today. A distinct innovation was made by the police. Chief O'Neill, issued a general order to arrest all persons following police-guarded wagons.

"When the strike first broke out," said Chief O'Neill, "persons followed the wagons out of curiosity. Now they follow them to incite. There will be no discrimination by the police in such cases in making arrests."

A typical call upon Sheriff Barrett for protection came today from James B. Clowes Sons, manufacturers of plumbers' supplies. Deputies were immediately sent to the firm's store with instructions to take seats on wagons sent out by the establishment and aid in keeping the peace. Yesterday teamsters for the firm were struck by stones thrown by persons in crowds near the Cowe factory. The police were unable to arrest the offenders. Sheriff Parrett announced today that pending developments the swearing in of deputy sheriffs would be confined to 200 men. His reason was that the calling in of additional deputies would be a burden upon the finances of the county.

Two thousand men constituted the police force available for strike duty today. With this number the police officials expected to guard 1,200 wagons, a decided increase over yesterday's total. Renewed confidence was experience dby the police officials in their ability to exercise a reasonable degree of control, taking into consideration tumultuous conditions inevitable to a great labor disturbance.

The fuel supply of the Union Traction company, which controls over half the street car lines of Chicago, was placed in jeopardy today.

Pickets of the teamsters' union were on duty all night to prevent shipments being made to six power houses supplied with coal by the Peabody company, an ally of the employers' teaming association. This watch continued today and every union man that could be spared from the strike-bound yards of the Peabody, Standard Wash, Hartwell, Patton and Daniels coal companies was sent to the power houses to hamper incoming shipments.

The six power houses threatened each use from 125 to 175 tons of coal a day.

For possibly the first time since the strike began a caravan of coal wagons manned by non-union negro teamsters traversed the center of the city today absolutely unmolested. The caravan consisted of 16 wagons enroute from the stables of the employers' teaming company at Eighteenth and State streets to the Daniels Coal company yards at the foot of South Water street. Not a jeer was heard as the wagons moved along the streets. The wagons were loaded with coal and then escorted to various office buildings and department stores in the business section.

A canvass of the street shopping districts showed that delivery wagons were sent out today from nearly every retail store. In many cases policemen furnished with light runabout buggies acompanied the wagons. The general resumption of deliveries of goods to residents, though on a greatly restricted scale, was in direct contrast to results on previous days, when such traffic had almost reached the vanishing point.

MISS PATTERSON RESTING EASY

She Has Almost Recovered from the Shock of Jury's Verdict.

New York, May 6.—Nan Patterson's condition was much improved today. Her recovery from the almost complete breakdown which followed the failure of the jury in her case to agree early yesterday morning began yesterday afternoon and has progressed steadily.

She arose today at the usual hour in apparently good health and spirits and ate a good breakfast. That she had not fully regained her normal health became evident, however, when she expressed a desire to retire again immediately after breakfast. She was very tired, she said, and needed another hour of sleep. She did not wait even long enough to open the letters which came to her in the morning mail. There was a big bundle of letters for the prisoner today and with them many picture postal cards.

One of these bore a message urging Miss Patterson to keep up her courage and to "be game to the last."

Several other cards bore messages of similar nature.

Nan Patterson was told today by her attorneys that she probably will not be released on bail before Monday.

Charge Against Smiths Quashed.

New York, May 6.—Judge Foster in the court of general sessions today quashed the indictments charging conspiracy against J. Morgan Smith and his wife, Julia Patterson-Smith. He gives the district attorney permission to resubmit the case to the grand jury. The Smiths were arrested in Cincinnati and are now in the Tombs prison here.

The Smiths will remain in the Tombs pending the decision of the district attorney as to whether he will resumbit the case to the grand jury.

Counsel for the Smith said that after 24 hours he would move for their discharge if the district attorney has not by that time decided to resubmit the case and fixed the time to do so.

In dismissing the indictments Judge Foster severely criticised the grand jury. The minutes of testimony show no evidence whatever of conspiracy on the part of these defendants, he wrote. The grand jury has no right to find an indictment where there is no evidence to support it. I can only explain the fact that an indictment was found on the theory that the defendants who were without the state was needed as witnesses in an important case.

To Burn Gambling Outfits.

Macon, Ga., May 6.—Five thousand dollars' worth of gambling paraphernalia will be burned in front of Bibb county's courthouse Monday morning in the presence of throngs of prominent citizens, provided nothing interferes with the present plans of the grand jury. The jury summoned Sheriff Georgia Robinson and told him that the clubs operated or owned by A. L. Wooten, Claud Hunt and Clint Porter and Sam Edmondson had been shown to have gambling paraphernalia, and it was the desire of the jury that these place be raided and all such paraphernalia seized and brought into court.

Mayor's Term of Office Lengthened.

Albany, N. Y., May 6.—The senate today passed the bill extending the term of mayor and other elective officers of New York city from two to four years. The measure already passed by the assembly and now goes to Mayor McClellan for his action. The bill has attracted considerable attention because it was introduced at the instance of the Republican organization. It does not affect the present city administration.

TWO PEOPLE KILLED AND EIGHT INJURED

Severe Thunder Storm Sweeps Over City of St. Louis.

VALUBLE PROPERTY DESTROYED

Telegraph Poles Along the Levee for a Mile Are Blown Down, and People Rescued from Their Homes by Aid of Rowboats.

St. Louis, May 6.—The severe thunder storm and wind storm that swept over St. Louis and vicinity late yesterday and last night resulted in the death of two persons and injuries to eight and considerable damage to property. The dead:

Charles Benton, aged 7, drowned.

Charles Kroeger, farmer, Edwardsville, struck by lightning.

The injured: James T. Roberts, attorney, leg broken and bruised; J. H. Grimm, attorney, leg broken; Raymond Dudley, contractor, leg broken; Mrs. Elmer L. Smith, ankle fractured; George Lachrman, of Union, struck by lightning; William Nichol, Belleville, engineer, stunned by lightning; Mrs. Mary O'Connell and daughter, stunned by lightning.

Along the east St. Louis levee, a mile of telegraph posts carrying 148 wires, were blown down, some heavy poles being broken into three pieces.

William Nichol, a hoisting engineer, of near Belleville, was struck by lightning as he was hoisting six miners from a shaft. He was not overcome, however, and succeeded in bringing the miners safely to the surface.

Along the river DesPeres houses were flooded to the second story and the occupants were taken out in boats.

Charges Preferred Against Judge.

Albany, May 6.—Instead of presenting to the assembly today charges against Justice Warren B. Hooker, as the outgrowth of the investigation into the alleged improprieties and the injustices in part relation of the affairs at Fredonia and Dunkirk, Chairman Fish of the judiciary committee, asked for more time, declaring that it had been physically impossible to prepare charges in 24 hours. He asked that the resolution adopted yesterday calling for a series of charges to be presented today to be rescinded. The resolution was rescinded and another, giving the judiciary committee time to formulate rules and form of proceedure and prepare charges, was adopted. This will necessitate a special session of the legislature to hear the case.

Heavy Snow in Northwest.

St. Paul, May 6.—Weather conditions in the northwest, particularly in North Dakota and Montana and north Winnipeg, have been very unusual during the past 24 hours. Reports received at the general office of the Northern Pacific railroad today show that there was a heavy fall of wet snow in that section of the country ranging in depth from 6 inches to a bert, of the Northern Pacific, stated to the Associated Press that rotary snow plows were used on Branches of that road north of the main line to clear the tracks of snow. The snow is considered a great blessing as the ground was very dry and a good crop is now looked for.

Safe Blowers Secure Booty.

Cincinnati, May 6.—Safe blowers secured $1,300 in cash and nearly $2,000 worth of merchandise at the general store of Todd and Boesch at Alexandria, Ky., today. The safe was blown to pieces with blasting powder. The explosion occurred during the thunder storm and was mistaken for a clap of thunder. The robbery was not discovered until today.

Celebrate Arbor Day.

New York, May 6.—Arbor Day will be celebrated in all the public schools of this city and state today. In the crowded sections of the city where the school yards are cramped and in many cases without lawns, tree and shrubbery, and small plants, are set out in window boxes and flower pots.

In a private letter to relatives in this city, Mrs. J. N. Strobhar, president of Kirby Smith Chapter, U. D. C., who, with her charming daughter, Miss Mary, has been attending the State Convention of the Daughters of the Confederacy at Pensacola, states that she and daughter, together with Misses Roberta and Bessie Purse, two charming young ladies of Savannah, will visit Mrs. Strobhar's brother, C. W. Strobhar, at New Orleans, by special request.

Mr. Strobhar is not only a prominent member of the Sons of Confederate Veterans, but of the Sons of the American Revolution as well, and is a prominent business man of New Orleans. There is no doubt but that he will make the visit pleasant for his visiting relatives. He has not had the pleasure of entertaining his sister for several years, owing to the great distance between them.

Colfax Rebekah Lodge.

An enthusiastic meeting of Colfax Rebekah Lodge, Independent Order of Odd Fellows, was held at the lodge room Faiday evening, a large crowd being present.

There has been a great deal of enthusiasm in the Colfax Rebekah degree since the meeting of the Grand Lodge in this city. In fact, the members of this lodge have manifested a great deal of fraternal interest in the work, and have expressed a desire to become the leading Rebekah lodge in the State in conferring the Rebekah degree. With this determination they decided to organize a team to do the work properly, and went about it in the proper way.

The lodge organized a team for working purposes comprised of the best working material in Colfax Rebekah Lodge, which means a great deal. They elected J. W. Blanding as captain, with nineteen members of the order as a team, with fine material as the principals in the great work of that degree. There is no doubt but that Colfax Lodge will work the degree satisfactorily, and that they will prove the most efficient eventually in the State in this work.

Hague Crops.

Hague, May 6.—Crops are very promising, considering the long drough. Corn is needing rain badly, but cotton that was planted early and has had enough rain to bring the plants out of the ground is looking fine. South of here, bordering the hammock, crops are looking better. John G. Dampier has a fine crop, and Arch and John Hague and sons' crops are above the average. James Hague and his renters have an extra good corn crop, but I. C. Manning has the best corn, pinders, chufars and watermelons in this section. His cane crop is also good. This crop is worth looking at.

ELON ACREAGE WILL BE LARGE

Hundreds of Acres Will be Added to Alachua Stands This Year.

SEVERAL NEW PLANTERS

Many Who Have Never Experimented With Cantaloupes Before Have Fine Stands, and the Yield Promises to be Very Prolific.

The cantaloupe prospect in this county is very promising, as there is planted this year one of the most extensive acreages ever known in the county. In addition to the regularly established stands which have been listed as regular crops for the past few years, there are a number of planters who have stands this season for the first time on an extensive scale.

W. R. Steckert, who has just returned from the Jonesville and Cadillac sections, states that the acreage in cantaloupes is large. J. W. Williams & Co., near Jonesville, have a stand of three hundred acres which are growing nicely, and which promise a prolific yield if nothing happens to set the plant back. The Griffing Brothers Company of Jacksonville and Macclenny, who own an immense peach orchard at Cadillac, have also planted one hundred acres of cantaloupes as an experiment, which are doing nicely. There are quite a number of smaller cantaloupe stands in that section, aggregating in all between five hundred and six hundred acres.

SEMINARY BOYS TO BAD.

Allowed S. F. M. I. to Administer Two Severe Drubbings Friday.

The East Florida Seminary baseball team returned to their home Saturday, after having suffered defeat in two successive games with the South Florida Military Institute team at Bartow Friday.

The first game was pulled off Friday morning, when the score resulted 7 to 2 in favor of the South Florida boys Seven seemed to be the lucky figure for Bartow, for in the afternoon game the close showed a score of 7 to 4 in favor of the Bartow team.

The boys have no complaint to make at the manner in which they were received at Bartow. They were treated royally by the good people of that town, and will remember their visit very pleasantly, notwithstanding their defeat.

Bartow and Gainesville are even honors now, the East Florida boys having badly defeated the eleven from South Florida Military Institute at football last season.

Bartow must give East Florida Seminary return games, and our boys feel confident that, by additional practice, they will be in position to meet them with success when they come to Gainesville.

The Seminary boys state that their opponents are well trained and efficient in the national game, and admit that even when they come to Gainesville there will be no "snap."

Johnson's Trade Expands.

For the past few days Dr. W. M. Johnson, the druggist, has not been confining his business to the city and county, for he has made two shipments of fine cigars into Alabama. A few weeks ago a traveling salesman happened into Dr. Johnson's store and called for a good ten-cent cigar. The genial Doctor gave his customer the best he had in the shop for the money, which he does with all his customers. An hour afterwards the stranger returned and purchased a half dozen "of the same brand," stating that it was the best ever for a dime. He also asked the name of the brand, which he noted in his book.

Dr. Johnson heard nothing more until about ten days ago, when he received an order for a box to be shipped to Columbia, Ala., and Thursday he received the second order for a hundred to be sent to Lockhart, Ala.

The Doctor believes he has a "cinch" on this particular customer, and expects to hear from him at regular intervals until he can find a more convenient point to purchase this particular brand

Attention, Odd Fellows.

Attention is called to the regular meeting of Center Lodge No. 11, I. O. O. F., which will be held Monday evening at the lodge room over Dutton's bank, beginning at 8 o'clock. There will be work. A full attendance is desired, and visiting brothers are cordially invited to attend.

Chamberlain's Cough Remedy the Very Best.

"I have been using Chamberlain's Cough Remedy and want to say it is the best cough medicine I have ever taken," says Geo. L. Chubb, a merchant of Harlan, Mich. There is no question about its being the best, as it will cure a cough or cold in less time than any other treatment. It should always be kept in the house ready for instant use, for a cold can be cured in much less time when promptly treated. For sale by all druggists.

Meeting of Board of Trade.

A meeting of the Gainesville Board of Trade is called for Monday evening at 4:30 o'clock. This will be an important meeting, as officers will be elected for the ensuing year. A full attendance is requested.

A Positive Necessity.

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.—D. R. Byrnes, merchant, Doversville, Texas. 25c, 50c and $1. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

Women find quick relief in Dr. Thacher's Liver and Blood Syrup.

REAL ESTATE TRANSFER.

C. C. Pedrick Has Purchased Valuable Real Estate on Church Street.

A valuable real estate transfer has been consummated in this city, C. C. Pedrick having purchased the Mote lot on East Church street, directly east of the Strobhar home, and opposite the East Florida Seminary.

The purchase served as a surprise to a great many, since this property has been in demand by many citizens for some time. Many efforts have been made to purchase the same, but to no avail.

Mr. Pedrick proposes to erect at an early date a handsome residence on the property, where his family will reside. He is one of the leading spirits of the county, and deserves what has fallen to him.

The friends of Mr. Pedrick extend congratulations upon his new possession.

A THOUGHTFUL MAN.

The man who is thoughtful is generally modest, and for that reason no mention of the name of this thoughtful man we have in mind will be made. He is also mindful of the fact that it is human to make an error occasionally, and while it is equally annoying, he looks on his fellow-men as human beings, and is ready to overlook many slight defects.

But when this thoughtful man comes up to the desk in the counting room on Saturday morning, knowing that the devil is to pay on that evening in the printing office, and planks down the money for a year's subscription to The Daily or Weekly, as the case may be, we feel thankful that such men are in our midst, and only wish that the population would show a large increase in their number each year.

Total amount of collateral in the State treasury for the various funds, April 30, was $498,363.83.

Two of the University of Florida faculty engaged in an encounter several days ago, and one went for the other Sledd length. The matter was settled.

Tampa has been after everything in sight, to keep even with Jacksonville. The latter has secured a tannery, but Tampa has a scandal that has equally as bad an odor.

It is thought the Russian fleet has been discovered. Several names are in the hands of the Japanese strategy board, and they will be analyzed at the earliest possible moment, to ascertain their nationality.

Notwithstanding the frost did considerable damage and nearly ruined the fruit in North Carolina, shippers are now experiencing considerable trouble in getting sufficient cars to send their crop to the markets.

Senator Bailey of Texas, in a recent address before the Legislature of that State, said: "I believe that the man who will do the railroads wrong in order to get people's office will do the people wrong whenever he wants something from the railroads worse than he wants the public position."

In the person of Hon. Harry H. McCreary, of The Gainesville Sun, the newspapers of the State have a faithful friend—one who is ever on the alert when bills affecting publishers are on the docket in the Senate. So long as McCreary is a member of the Legislature the Florida editors need not fear any legislation adverse to their interests.—Palatka Times-Herald.

Who ever heard of such luck? When we have been singing for several generations, "Way Down Upon the Suwannee River," and supposed Charley Foster wrote it and first sung it to the venerable John M. Caldwell at a "chowder" bake on the river bank near Jasper, it transpires that the song was written by James Hall, a native of Tennessee, who never saw anything but a creek in that State called the Suwannee. It looks like another case of "Who struck Billy Patterson."

LEGISLATIVE NOTES.

After thanking the Senate, and the Committee on Privileges and Elections especially, for their kind consideration of his interests, Senator Brown conducted Mr. Baskin to his seat and said:

"Mr. President and Gentlemen of the Senate: I am proud to have the honor to deliver my seat in this honorable body to one of Marion county's young and noble sons, whom I trust will be a worthy member of this Senate and fill this chair with the same zeal for old Marion county as I have tried to manifest. 'I never accepted this chair with reasons, nor do I believe I leave it without honor,' and now pray that the interests of the Twentieth Senatorial District may be blessed in his hands. Farewell."

On motion, Mr. Brown was tendered the courtesies of the Senate for the remainder of the term, and heartily applauded.

Representative Wall's (of Putnam) bill entitled an act to prescribe the per diem of sheriffs for attendance on courts, will be a much sought measure.

The bill of Representative Kilgore of Sumter, to prohibit dealers in spirits, their agents, or employes from shipping to any point within the State of Florida any spirituous, vinous or malt liquors in cases or packages of any kind whatsoever without first labeling the said cases or packages, said label showing the true contents contained in said cases, package or packages, and providing a penalty for violation of this act, was ordered engrossed.

An act by Representative Canter of Polk, making it a violation of law to assist in procuring or buying wines, beers or other intoxicating liquors in counties or precincts where local option exists, and prescribing a penalty therefore, was read in the House.

Friday Mr. Kirkland offered the following amendment: "That the provisions of this act shall not apply to wines made from grapes grown in the said counties," which was adopted. Mr. Kirkland's amendment, excepting Nassau county, was laid on the table, and the bill ordered engrossed.

A bill by Representative Matthews of Bradford, to extend the powers of the Railroad Commissioners so as to give them power and authority to regulate charges of telegraph companies for the transmission of messages by telegraph, to apply the powers given to said commissioners owning controlling or operating a line or lines of telegraph, and to make the penalties prescribed against railroads for violating commissioners' rules, apply to the companies and persons herein named, whose line or lines is or are wholly or in part in this State, and for other purposes, was read in the House the second time and ordered engrossed.

ANTI-TUBERCULOSIS CONVENTION.

About 600 physicians from all parts of the United States attended the Anti-Tuberculosis Congress at Atlanta, Ga. At one session the following points were made and approved by the physicians present:

1. Tuberculosis is not the fatal disease commonly believed.

2. While communicable, it can be made practically innocuous by the proper course on the part of the patient.

3. The chief cause of the large mortality is late diagnosis.

4. Late diagnosis is caused by indifference of the patient to early symptoms and carelessness on the part of the physicians consulted.

5. By thorough, systematic instruction of the patient better results can be accomplished than by medication.

6. Instruction of patient, family and friends and close observance on their part of the rules laid down will practically rob the disease of its method and means of extending.

The woman who meditates traveling this summer will be especially interested in the June Designer, which pictures the latest inventions which will add to her comfort. A well-written article by Myra Emmons tells how one may make a trip to Europe, spend a month on land and have a satisfying glimpse of six different countries for one hundred and fifty dollars, exclusive of ocean-steamer expenses. Those who want a breath of country air as reasonably as can be obtained will appreciate "The Summer Outing," which presents camp life of most novel character. There are, however, many women who just now are far more interested in the planning of their wedding-gowns than their traveling outfits, and for these are given three pages of bridal costumes, with the addition of outfits for the flower-girls and pages. The college girl will be pleased with "Dramatics at Vassar," and the school-teacher in search of an appropriate entertainment for commencement day will gladly avail herself of "The Daisy Party," than which no daintier or more summerlike frolic for little folks can be imagined. All mothers will prefer to any other pages in the magazine the two on which are given lullabies, with charming border of drowsy babies being sung to sleep by the crickets. In every other department The Designer is complete for June.

Must Die For Killing Officer.

St. Louis, May 6.—Heavily shackled and in custody of Sheriff Gehlert and five other officers, Bill Rudolph, condemned to death for the murder of Detective Scumacher, was taken to Union, Mo., today to be hanged next Monday. When informed that all legal resources to stay execution or secure executive clemency had been exhausted, Rudolph said: "I guess that settles it."

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We offer One Hundred Dollars Reward for any case of deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure.

HERBINE
TRADE MARK

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

THE NEWS FROM ARCHER.

The Installation of Dr. Waddell as Pastor—Personal Mention.

Archer, May 5.—Mrs. Libbie McMillen and baby have arrived from Baltimore on a visit to her parents, Mr. and Mrs. Jas. Hancock.

Mrs. A. T. Duren and son, Theodore, have gone to White Springs to be gone some time on account of Mrs. Duren's health.

Mr. Hudson and Dr. Howard Smith and family came up from Cedar Key on Sunday and were the guests of Dr. and Mrs. DePass.

Mr. and Mrs. Scolton, winter visitors of Archer, have gone to their northern home at Kokoma, Ind.

Edmund Pearson and son, Linton, and families have gone to their northern home in Plainfield, Ind.

Mrs. Tillie O Donnell and baby are visiting her parents, Mr. and Mrs. J. T. Fleming.

Dr. Waddell has returned from several days' outing at Cedar Key. Reports fine time fishing.

Mrs. McMillen received a telegram from her husband in Baltimore, stating that he had graduated with honor from the Baltimore Medical College. He will join his family here in a few days, and will look around for a location.

Albert Smith and family, who have been visiting his parents, left today for their home in Brunswick, Ga.

The installing of Dr. Waddell as pastor of the Presbyterian church on last Sabbath was very impressive, and was enjoyed by a large congregation. The sermon was preached by Rev. Lindsay of Ocala. The questions and charge to pastor were delivered by Rev. Gordon of Micanopy.

Mrs. C. W. Bauknight returned home today, after having spent three weeks visiting her daughter, Mrs. Tucker, at Live Oak.

A Good Suggestion.

Mr. C. B. Wainwright of Lemon City, Fla., has written the manufacturers that much better results are obtained from the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy in cases of pains in the stomach, colic and cholera morbus by taking it in hot water as hot as can be drank. That when taken in this way the effect is double in rapidity. "It seems to get at the right spot instantly," he says. For sale by all druggists.

Aged Army Officer Dead.

New York, May 6—Major Ralph Dunning, who entered the engineering department of the United States army when Andrew Jackson was president, is dead in Brooklyn at the age of 94. GENERAL LEE LAID TO REST.

With Imposing ceremonies and with Military Honors.

Richmond, Va., May 9.—Not in all its eventful history has Richmond witnessed a more imposing demonstration than that which marked yesterday the funeral of General Fitzhugh Lee.

Troops were pouring into the city all night and the military contingent which took part in the procession consisted of two full regiments of infantry, the Seventieth and Seventy-first, the Richmond Light infantry.

At the cemetery the committal service detached infantry companies, making in all about 2,000 men. Added to this were the veteran organizations, and nearly every carriage in the city had been engaged for the occasion. By noon the business section was practically deserted. Around St. Paul church, in which the funeral services were held, there was a dense throng and from there to Hollywood the sidewalks along the line of march were lined with spectators.

At the cemetery the committal service was read by Bishop Randolph, the body was lowered into the grave, three infantry volleys were fired, taps were sounded and a salute of 17 guns was fired.

The grave was left in the care of the Richmond Blues, who will guard it continuously for 24 hours.

Growing Aches and Pains.

Mrs. Josie Sumner, Bremond, Tex., writes, April 15, 19[illegible]: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c and $1.00. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

Race for Horses Burned to Death.

St. Louis, May 6.—So far as can be definitely learned until the horses that were released from their stalls and allowed to run free during the excitement attending the fire has been located, only three thoroughbreds were incinerated in the fire which destroyed 12 stables at the St. Louis fair association race track early today. The horses known to have been burned were Molly T., Irby Bennett, each valued at $400, and an unnamed maiden valued at $1,200. The damage to the buildings is estimated at $3,000.

Warning.

You cannot have good health unless your kidneys are sound, for the kidneys filter the blood of impurities which otherwise act as irritating poisons and break down the delicate organs of the body and cause serious trouble. If you have kidney or bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. Sold by J. W. McCollum & Co.

Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." YOUNG WIFE COMMITS SUICIDE.

No Cause Assigned for Deed—Leaves Husband and Children.

Tifton, Ga., May 6.—Mrs. J. E. Gary committed suicide at her home in Alapaha by taking carbonic acid and another poisonous drug.

About 2:30 o'clock in the afternoon she sent for one of her neighbors and told her that she had taken the drug. Immediately after she fell to the floor in a convulsion. She regained consciousness, and though medical aid was summoned, she was too far gone to be revived and died within 30 minutes.

There can be no cause assigned for the young woman's deed. She was the picture of health and so far as known had no troubles. Several times she stated that her reason for taking her own life was because she was tired of living.

Mrs. Gary was about 25 years of age and leaves two children and a husband.

Why Suffer From Rheumatism?

Why suffer with rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this liniment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it hoping only for a short relief from suffering have been happily surprised to find that after awhile the relief became permanent. Mrs. V. H. Leggett of Yum Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over from head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." For sale by all druggists.

Shouldn't Marry Divorced Person.

Knoxville, Tenn., May 6.—The divorce question was brought up in the Tennessee diocesan convention of the Protestant Episcopal church when references were made to the failure of the Tennessee general assembly, recently adjourned, to enact legislation restricting the divorce evil. Rev. Thomas D. Windiate, of Memphis, precipitated the question in reporting that nothing had been done in the way of divorce legislation, but the work of the clergy promised results. Rev. Dr. Claiborne asserted that no Episcopal minister should marry a divorced person, and made a motion to this effect. It received no second.

Juggling With Dynamite

Is no more dangerous than to neglect kidney disorders. Foley's Kidney Cure corrects irregularities and has cured many severe cases after other treatment has failed. It builds up the worn out tissues and restores health and vigor. "I was troubled with kidney complaint for about two years," writes A. H. Davis of Mt. Sterling, Iowa, "but two bottles of Foley's Kidney Cure effected a permanent cure." Sold by J. W. McCollum & Co.

Davis Nominated for Congress.

Cumberland, Md., May 6.—The Democrats of the second West Virginia district at Keyser, nominated for congress to succeed Alton G. Dayton, Republican, Colonel Thomas B. Davis, aged 77. Colonel Davis is the only brother of Henry Davis. He is a millionaire banker and horseman owning half-mile private tracks. Davis is very vigorous, and when Senator Campbell put him in nomination he said his subject disproved the Osler theory. Colonel Davis said he would run, because the Democrats had been so good to him and his brother. The special election occurs June 6.

Minister Sails for Orient Port.

Seattle, Wash., May 6.—Before the steamship Minnesota sailed for the Orient from Port Townsend, where she stopped for repairs, after leaving Seattle, the Great Northern Ssteamship company's officials changed her clearance papers so as to designate Shanghai as the port for which she sailed. When the Minnesota cleared from Seattle it was for Yokohama, and it is thought this latest act was due to fear of interference from Russian cruisers.

A Creeping Death.

Blood poison creeps up towards the heart, causing death. J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound, and saved his life. Best in the world for burns and sores. 25c at all drug stores.

Panama Governor Relieved.

Washington, May 6.—Secretary Taft today cabled General Davis at Panama to return at once to the United States, placing Colonel Gorgas in charge of the administration of the canal zone until the arrival there of Governor Magoon. Governor Davis is suffering from malaria and his physicians advised him to leave the isthmus. He has resisted their appeals, however, fearing that his sudden departure at a time when the health conditions on the isthmus are adverse, would be misunderstood.

Helen Post to Face Jury.

Jacksonville, Fla., May 6.—Attorney General Moody has ordered District Attorney Stripling to proceed with another trial against Helen Wilmans Post, convicted of using the mails for fraudulent pruposes and sentenced to one year and one day. Mrs. Post had appealed the case and in view of the opinion of the appellate court in remanding the case for trial, that the ability to heal by mental science could not be questioned by the court, it was thought that the case would be dismissed.

People Injured in Collision.

Wheeling, W. Va., May 6.—A collision between two Wheeling Traction company cars in Bridgeport, O., opposite this city seriously injuring a number of persons. The northbound car was loaded with about 30 workmen, who were going to the glass factory at Martin's Ferry Several of these men were on the runing board and were caught when the southbound car jammed against the side of their car. Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all drug stores; price 50c.

THE BELTED PLAID.

This Was the Original Dress of the Scottish Highlander.

The original dress of the highlander was the belted plaid. This was a piece of tartan cloth, two yards broad and four long, which was drawn around the waist in nicely adjusted folds and tightly buckled with a belt. The lower part came down to the knees in much the same manner as the modern kilt, while the upper part was drawn up and adjusted to the left shoulder, so that the right arm might be perfectly free. This upper part was the plaid, which was used as a covering for the shoulders and body in wet weather, and when the use of both arms was required it was fastened across the breast with a brooch, often curiously enriched. A brooch was also used to fasten the plaid on the left shoulder. To attire himself in the belted plaid required on the part of the highlander no small amount of dexterity. The usual way was to lay it on the floor and after carefully arranging the folds to lie down upon it and then buckle it on. The lower end was fastened at the right hip. The utility of such a dress in the highlands is obvious, for the plaid rendered the man indifferent to storms and prepared to pass a night in the open air in the most inclement weather, while the loose undergarment enabled him to wade rivers or ascend mountains with equal ease. It was thus peculiarly adapted to the warrior, the hunter and the shepherd.—London Mail.

PRAIRIE DOGS.

Choked Up a River While Traveling From Oklahoma to Texas.

"The prairie dog migration from Oklahoma to southwestern Texas during July, 1874, eclipsed anything of that sort witnessed by white men in this country," said a veteran who saw it. "Millions of the frisky little barkers must have been in quest of new pastures or perhaps feared the approaching legions of home seekers would surely exterminate the dogs and plow up the dog towns. The prairie dog migration from the north to the southwest lasted six days during the month of July, 1874. The traveling dogs while crossing the Red river interfered to a great extent with the cattle that came to that stream to quench their thirst. Some cowboys that were on the banks of Red river during the time when the prairie dogs swam across say that the stream was chock full of the little rascals for many miles up and down the river. The thirsty cattle were either unable or unwilling to stick their mouths into the water through the moving mass of living prairie dogs. The cowboys were getting ready to drive the famishing stock to a distant stream, but the Red river became clear of the repelling swimmers after blocking the useful drinking place for about a week. It was generally supposed that the dogs halted when they had reached the staked plains of Texas."—Kansas City Times.

Herbine

Will overcome indigestion and dyspepsia; regulate the bowels and cure liver and kidney complaints. It is the best blood enricher and invigorator in the world. It is purely vegetable, perfectly harmless, and should you be a sufferer from disease, you will use it if you are wise. R. N. Andrews, editor and manager Cocoa and Rockledge News, Cocoa, Fla., writes: "I have used your Herbine in my family, and find it a most excellent medicine. Its effects upon myself have been a marked benefit. Sold by W. M. Johnson, Gainesville, Fla., and J. C. Bishop, Alachua, Fla.

The Pin In England.

The date of the first manufacture of pins in England is shrouded in uncertainty, but it is authentically recorded that as early as 1464, when money was "tight," extensive cloth workers compelled their laborers to accept in payment for their work "pins, girdles and other unprofitable wares instead of money." The march of improvement had begun and kept on steadily until toward the middle of the sixteenth century pins began to win appreciation so high that statutes were enacted protecting their manufacture, and rigid laws were passed prohibiting the importation of numerous minor articles, including pins, gloves, knives, tailors' shears, scissors and irons. Up to this period female dress was fastened with ribbons, laces, clasps, hooks and eyes and skewers of brass, silver and gold. The latter were, in fact, pins without heads.—London Globe.

HOME WRECKER SHOT HUSBAND

Fatal Duel Over Woman Occurs at Her Home in Tampa, Fla.

Tampa, Fla., May 6.—Captain C. L. Parks, of the independent line steamer H. B. Plant, lies mortally wounded at his home in Hyde park, and Harry Bomford, a prominent plumbing contractor, is in the county jail, as a result of a shooting affray which occurred this afternoon at the residence of the former.

Captain Parks found Bomford in his home with his wife, and after bitterly upbraiding him for invading his home, shot him with a pistol, which he took from the mantel, the bullet striking Bomford in the left shoulder, inflicting only a slight wound.

Bomford then drew a pistol and shot Captain Parks just above the heart. Doctors believe the wound will prove fatal.

American Therapeutic Society Meets

Philadelphia, May 6.—The American Therapeutic Society has begun its annual convention here, with a good attendance of members. The convention continues in session today and Saturday. The Richest Man in the World.

The richest man in the world cannot have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebannon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." New York, May 6.—The 125th anniversary of the birth of John James Audubon, the naturalist, has been celebrated in the church of the Intercession on Washington Heights. Audubon lived nearby and at one time on the land on which the church now stands. Former Judge Alton B. Parker, Bishop Greer and others spoke, lauding the naturalist's character.

Famous Case Again Postponed.

Montreal, May 6.—The Gaynor-Greene case has been postponed until next Tuesday. The question of bail will also be decided then for although the court of appeals yesterday in refusing the appeal of the prisoners, also refused the request for bail, the judges intimated that the extradition commissioner had the right to allow bail if he so desired. Donald McMaster, of counsel for the United States, strongly opposed admission to bail.

JUST EIGHT YEARS APART.

Odd Fact Regarding the Ages of Five Successive Presidents.

John Adams was eight years older than his successor, Jefferson; Jefferson was eight years older than his successor, Madison; Madison was eight years older than his successor, Monroe, and Monroe was eight years older than his successor, John Quincy Adams.

Washington, Adams, Jefferson, Madison and Monroe ended their terms each in the sixty-sixth year of his age.

John Adams, Jefferson and Monroe ended their days on the Fourth of July, the two former dying within a few hours of each other, just half a century after the Declaration of Independence.

John Adams lived to be ninety years and eight months old, while Garfield died at the middle age of forty-nine years and ten months. Jefferson, Madison and John Quincy Adams lived to be octogenarians; Monroe, Jackson, Van Buren, Tyler, Fillmore and Buchanan got well into the seventies, and Washington, William Henry Harrison, Taylor, Pierce, Johnson and Grant only reached into the sixties. Polk died at the age of fifty-three years and Lincoln and Arthur at fifty-six.—Washington Post.

THE STOMACH.

If You Treat It Properly It Will Return the Compliment.

It is not an uncommon thing to hear a man or woman say, "There is something the matter with my stomach." They never stop to think whether they themselves are not at fault instead of the stomach. It is so easy to blame the stomach. It can't say anything back.

But the truth of the matter is the stomach is all right; nothing the matter with it at all. It is what is put into the stomach that is causing the trouble. The stomach knows when it receives something that will be injurious to the body or when it has been overloaded, and it protests against the indigestible article or the surplus amount of food.

It is acting as a friend and sending out a warning against this abuse. But instead of being grateful to the stomach and leaving off the indigestible food and the big dinners the man or the woman continues to load it with pie and cake, pickles and sauces, pork and pancakes and all sorts of horrid things, and then they complain that there is something the matter with their stomachs.—London Mail.

When the Thunder Rolls.

Excellent authorities agree that in a thunderstorm the middle of a room is much the safest place in a house. A carpeted floor or one covered by a heavy thick rug is better to stand on than bare wood. It is well to keep away from chimneys and out of cellars. In the open air tall trees are dangerous. A person sheltered under a low tree or shrub thirty or forty feet from a large and lofty tree is quite safe. If lightning strikes in the immediate vicinity it will hit the high tree as a rule, with few exceptions. Water is a very good conductor, and it is well to avoid the banks of streams in a violent thunderstorm.—Detroit Tribune.

A Bride's Misapprehension.

It was the first Sunday in their pretty new flat, and Mrs. G. determined to celebrate the joyous day with a dinner which would make her young husband think he had married not only "the sweetest girl in the world," but "the best cook." It was perfectly lovely to set the little round dining room table with the nicest presents, and the preparation of a tempting salad and dessert was not exactly a trying ordeal, but the roasting of the chicken made her a little nervous. After succeeding, with the assistance of a large oilcloth book, in getting the fowl into the oven she sang from sheer relief. A little later, when the music had ceased and the silence in the kitchen became suspicious, Mr. G. opened the door. Kneeling down before the oven, with flushed face and tearful eyes, was Mrs. G. On the floor beside her was the cookbook, and in one hand was a long needle with white thread. "Oh, dearie," she cried, "it is going to burn my hands just dreadfully to baste this chicken every fifteen minutes!"—What to Eat.

Sporting Repartee.

It is doubtful, said a biographer, if any repartee ever surpassed in delicacy the reply made by an East Indian servant of the late Lord Dufferin when he was viceroy of India.

"Well, what sort of sport has Lord —— had?" said the viceroy one day to his shikaree, or sporting servant, who had attended a young English lord on a shooting excursion.

"Oh," replied the scrupulously polite Hindoo, "the young sahib shot divinely, but Providence was very merciful to the birds!"

This story calls to mind one told by the writer of some reminiscences of Sydney Smith. On one occasion the celebrated physician, Sir Henry Holland, told the witty divine that he had failed to kill either one of a brace of pheasants that had risen within easy range near Smith's house.

"Why did you not prescribe for them?" came the quick reply.

The Weight of Hats.

"What do you suppose this hat weighs?" said the hatter, taking up a fine eight dollar top hat of silk.

"About a pound," the patron hazarded.

"Only a little over a quarter of a pound—five ounces, to be precise. No good hat," said the hatter, "runs over four or five ounces nowadays.

"This white felt hat—it is worth $25—weighs less than an ounce. This new five dollar derby hat weighs four ounces. Straw hats run from two to four ounces in weight.

"It pays a man to make the weight an important consideration in the choosing of a hat, for a light hat is a prevention of headache, and its injurious effect on the hair is reduced to a minimum."—Philadelphia Bulletin.
